

## TASKI Tapi Shampoo

### Carpet shampoo

#### Description

Concentrated carpet shampoo for the intermediate cleaning of all types of carpet and upholstery. Incorporates the new "ONT" air neutralising technology for effective malodour neutralisation and long lasting fragrance.

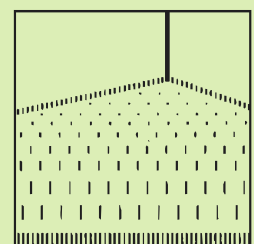

#### Key properties

- Special combination of effective high foaming surfactants
- Residues are easily removed by vacuuming
- pH neutral, endorsed by the Woolsafe Institute
- Suitable for any carpet shampoo methods
- Incorporates "ONT" air neutralising technology
- Efficiently deactivated house dust mite allergens

#### Benefits

- Excellent cleaning performances
- Reduces re-soiling of the carpet
- Safe to use on any carpet types including wool
- Can be used for dry and wet shampooing as well as for the carpet pad method
- Neutralises malodour molecules and therefore enhances the perfume effect
- Tested by independent laboratories for allergens reduction

# C2c

# TASKI Tapi Shampoo

## Use instructions

**Min. dosage:** 300ml for 10l solution (3% / 1:33).  
Increase this concentration to 10%  
for heavy soiling.

**Carpet pad method:** Use at a concentration of 2%

## Application:

Vacuum carpet and remove spots.

Dry foam method: Using a TASKI Swift 35 or a single disc machine with foam generator and dry foam shampoo brush, dose the product into the full water tank. Adjust foam generator to produce the foam in required dryness and shampoo the carpet. Lift the carpet pile with a carpet brush while still damp to accelerate drying. Allow the treated carpet to dry, then thoroughly brush vacuum to remove the crystallised shampoo residues. Shampoo upholstery with the hand brush, allow to dry and thoroughly vacuum.

Carpet pad method: Using a single disc machine and a carpet pad, spray product sparingly onto the carpet and the carpet pad. Work all area systematically in overlapping passes. Change or turn carpet pad when saturated with dirt.

Wet shampooing: Using a single disc machine, tank and wet shampoo brush, release product directly on the floor and shampoo the carpet immediately. Lift the carpet pile with a carpet brush while still damp to accelerate drying. Allow the treated carpet to dry, then thoroughly brush vacuum to remove the crystallised shampoo residues. Shampoo upholstery with the hand brush, allow to dry and thoroughly vacuum.

## Important:

Test colour fastness and material compatibility in an inconspicuous place before use. Do not refurnish until the carpet is completely dry. Protect the furniture feet with plastic or aluminium foil to prevent rust or varnish/finish damage.

## Technical data

- Appearance: Yellow liquid
- Relative density (20°C): 1.00
- pH value neat: 5.8 – 6.3
- pH value in use: 8.0 +/- 0.5 at 3% dilution

The above data is typical of normal production and should not be taken as a specification.

## Safe handling and storage information

### Safe handling:

Full guidance on the handling and disposal of this product is provided in a separate Material Safety Data Sheet. Only for professional users / specialists.

### Storage Information:

Store in original closed containers away from extremes of temperature.

## Approvals

Endorsed by the Woolsafe Institute.

Reduction in allergen levels from soiled carpets” - Established by the Medical Entomology Center, Cambridge UK

## Environmental information

The surfactants used in this product are biodegradable in compliance with the requirements of EC Directives 73/404/EEC and 73/405/EEC and their subsequent amendments.
