

TASKI

TASKI Clonet Extra

Toilet cleaner-lime remover

Description

Ready to use cleaner for effective removal of lime scale and other deposits from toilet bowls and bathroom surfaces.

Key Properties

- Removes lime scale caused by hard water and other soils from ceramic, metal and enameled surfaces
- Fast acting
- Cleans without scratch and dull

Benefits

- Fast removal of lime scales
- Extended contact time on vertical/sloped surfaces for optimum cleaning efficiency
- Suitable for use on intact porcelain, ceramic and glazed sanitary installations

Use instructions

Dosage:

TASKI Clonet Extra is ready to use; apply undiluted.

Application:

Flush the toilet bowl or urinal. Squeeze the bottle to direct product under the rim, around the bowl and onto water/flush paths. Allow 5-10 minutes for contact time, scrub with brush if you need, then flush to rinse.

Increase the acting time (1 – 2 hours) in case of heavy calcium/lime build-up.

Pour out some amount of TASKI clonet extra directly on to surface for surface cleaning. Wipe out and rinse.

Important:

Do not mix the product with chlorinated products and do not use on acid-sensitive surfaces such as marble. Immediately remove any drops or splashes from acid-sensitive surfaces and rinse thoroughly with water.

Technical data

Appearance	: Clear, pink liquid
Relative density (20°C) g/cm ³	: 1.05
pH neat (1%)	: 2.0

The above data is typical of normal production and should not be taken as a specification.
