

Zoma Main Wash

Liquid mechanical ware washing detergent for hard water.

Description:

Zoma Main wash is concentrated liquid detergent, specially formulated to provide excellent soil removal in hard water conditions.

Key Properties:

Zoma Main wash – is a heavy duty alkaline liquid detergent which is suitable for use in a wide range of single and multi-tank ware washing machines. It contains a blend of caustic alkali and scale control agents, which will provide excellent soil removal. High level of powerful scale control agents will also prevent scaling in hard water conditions.

Benefits:

- Cuts through grease and dried-on food.
- Being highly concentrated gives greater economy in use.
- Prevents scaling of the dish washing machines, even in hard water.

Use Instructions:

Zoma Main wash is normally used with Automatic dispensing equipment. It can be used with integral dosing pumps where fitted. To ensure perfect cleaning result in hard water, dose at concentration of 1.5-4ml/l, depending on local site conditions.

At 2ml/l, this will prevent scale deposits in water containing up to 205ppm CaCO₃.

At first use, rinse pump and transport tubes of the dosing system to avoid possible crystallization in these tubes caused mixing of products.

Technical Data:

Appearance	Clear yellow liquid
PH (1% solution)	12.2
Relative density g/cc, 20°C	1.165

These figures are typical values and should not be interpreted as specifications.

Safe Handling and Storage Information:

Full guidance on the handling and disposal of this product is provided in a separate Material Safety Data Sheet.

Store in original container. Avoid extremes of temperature.

Product Compatibility:

Under recommended conditions of Zoma Main Wash is suitable for on most materials commonly used in kitchen. Do not use on alkali sensitive items, such as: copper, brass, aluminum or rubber.
