

Zoma Diamond Rinse

Liquid Acidic rinse aid.

Description:

Zoma Diamond Rinse is a concentrated low foam machine rinse additive with scale control properties.

Key Properties:

Zoma Diamond Rinse – is a concentrated acid rinse additive. It has been specially formulated for use in a wide range of ware washing machines. The product contains a blend of low foam surfactants for rapid and streak-free drying and for foam control in the dishwasher. It also contains scale control agents to keep the machine free from scale in medium and hard water conditions.

Benefits:

- Ensures quick drying
- Gives streak and spot-free results.
- Suitable for hard water due to scale control agents.

Use Instructions:

Zoma Diamond Rinse is normally used with Automatic dispensing equipment. Into the final rinse water of ware washing machines at concentration of 0.2-0.5ml/l.

It may also be applied into the rinse aid reservoir of smaller ware washing machines. Actual dosage levels are determined to local site conditions.
