

Suma[®] Crystal

A8.8

Liquid acidic rinse aid

Description

Suma Crystal A8.8 is a low foam machine rinse additive with scale control properties.

Key properties

Suma Crystal A8.8 is an acid rinse additive, specially formulated for use in a wide range of ware washing machines. The product contains a blend of low foam surfactants for rapid and streak free drying and for foam control in the dishwasher. It also contains scale control agents to keep the machine free from scale in medium hard and hard water conditions

Benefits

- Ensures quick drying
- Gives streak and spot-free results
- Suitable for hard water due to scale control agents

Use instructions

Suma Crystal A8.8 is normally injected automatically into the final rinse water of ware wash machines at a concentration of 0.1-0.3 ml/l using Diversey Care automatic dispensing equipment or integral dosing pumps if fitted. It may also be applied manually into the rinse aid reservoir of smaller ware washing machines. Actual dosage levels are determined according to local site conditions.

Technical data

Appearance	clear green blue
pH neat	3.75
Relative density (20 °C)	1.013

These figures are typical values and should not be interpreted as specifications.

Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet. Store in original container. Avoid extremes of temperature.

Product compatibility

Under recommended conditions of use, Suma Maro A8.8 is suitable for use on most materials commonly encountered in the kitchen. The neat product is corrosive towards brass and copper. Do not dose the product before the boiler and try to avoid the use of copper / copper alloy piping or use a stainless steel injection point.
